

# STAS decor-rail

picture hanging systems

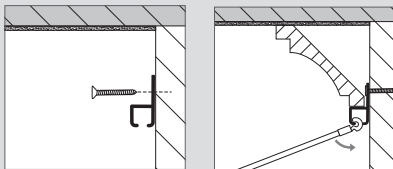

## product description **STAS** decor-rail

STAS decor-rail is a basic hanging system which can be almost completely hidden, using a cornice or a moulding. Hang your wall decorations safely, elegantly and flexibly using the STAS hanging systems. Thanks to the patented cobra you don't need to slide the perlon cord, steel cable or rod through the rail; it can simply be hooked on wherever you choose.

## application

The STAS multirail crown system is suitable for newly built and existing properties and is also very appealing in classical buildings. The decor-rail attaches to the wall and the moulding can be mounted on the rail with mounting sealant.

## mount assembly

## features

material	aluminium rail
colour	white
dimensions	9 x 19 mm
carrying loads	up to 25 kg per meter

## STAS quality and innovation

STAS picture hanging systems has proven itself to be the world's most innovative manufacturer of high-quality picture hanging systems. STAS only uses the best materials and closely controls every step of the production process. Our products have been awarded no less than 20 unique patents. The STAS smartspring was even awarded a gold medal at the Inventors' Convention in Geneva and the STAS cobra has won a Good Industrial Design Award. The STAS minirail won the 'Best Product Design Award for Decorative Accessories'. That is why STAS products are used all over the world in both family homes and in businesses, educational institutions, government buildings and the most prestigious museums and galleries.
